"August Flower"

What is
It For?

ed boys. Life is an interrogation
point. "What is it for?" we con-
tinually cry from the cradle to the
grave. So with this little intro-
ductory sermon we turn and ask: "What
is AUGUST FLOWER FOR?" As easily
answered as asked: It is for Dys-
pepsia. It is a special remedy for
the Stomach and Liver. Nothing
more than this; but this trifling.

We believe August Flower cures
Dyspepsia. We know it will. We
have reasons for knowing it. Twenty
years ago it started in a small country
town. To-day it has an honored
place in every city and country store,
possesses one of the largest manu-
facturing plants in the country and
sells everywhere. Why is this? The
reason is as simple as a child's
thought. It is honest, does one
thing, and does it right along—it
cures Dyspepsia.

A Nineteen Hours' Battle with Outlaws.

Deputy Marshal Calverit has just re-
turned from the Sac and Fox reserva-
tion, and gives the following details of
how he and nine other deputies and a
troop of United States cavalry effected
the capture of the Dalton boys and their
gang for robbing the Santa Fe train at
Wharton.

Thursday the trail of the robbers was
found by the Indian scouts and blood-
hounds put on the track. The robbers
fled to a cave in the hills, and there shot
the dogs as they came up, and when the
deputies arrived they opened fire and
drove them back. The marshals sent for
assistance, and the troops arrived late
Thursday evening.

For nineteen hours a pitched battle
raged, which resulted in the killing of
Bob Dalton and the wounding of James
Eaton, private. As the outlaws had
neither food nor water they were at last
obliged to surrender, and held out a flag
of truce, but as the officers were afraid
of treachery they compelled the outlaws
to come to the mouth of the cave with
their hands up over their heads and with
neither guns nor pistols on their persons.

The four survivors appeared at the open-
ing in the position designated, but the
marshals were not satisfied with their
statement that Bob was dead, and com-
pelled the remaining members to go
back and bring the dead body into view.

This was done, and the outlaws were
bound and taken in charge.

In the cave was found the full evi-
dence of their latest crime, the robbing
of the train. Money, jewelry and ex-
press wrappers were found lying on the
floor of the place. Two of the outlaws
received severe wounds, and the whole
party was nearly exhausted from want
of food and water.—Indian Territory
Cor. Denver Republican.

Conscious Clover Blossoms.

The subterranean clover has been
driven by its numerous enemies to take
refuge at last in a very remarkable and
almost unique mode of protecting its off-
spring. This particular kind of clover
affects smooth and close cropped hill-
sides, where the sheep nibble down the
grass and other herbage almost as fast as
it springs up again.

Now, clover seeds resemble their allies
of the pea and bean tribes in being ex-
ceedingly rich in starch and other valu-
able foodstuffs. Hence they are much
sought after by the inquiring sheep,
which eat them off wherever found as
exceptionally nutritious and dainty mors-
els. Under these circumstances the sub-
terranean clover has learnt to pro-
duce small heads of bloom, pressed close
to the ground, in which only the outer
flowers are perfect and fertile, while the
inner ones are transformed into tiny,
wriggling corkscrews.

As soon as the fertile flowers have be-
gun to set their seed, by the kind aid of
the bees, the whole stem bends down-
ward, automatically, of its own accord;
the little corkscrews then worm their
way into the turf beneath, and the pods
ripen and mature in the actual soil it-
self, where no prying eye can poke an
inquisitive nose to grub them up and de-
vour them.

Cases like this point in certain ways to
the absolute high water mark of vegeta-
ble ingenuity; they go nearest of all in
the plant world to the similitude of con-
scious animal intelligence.—Minneapolis
Tribune.

Tried to Eat Forty-eight Bananas.

A banana eating contest was the prin-
cipal attraction. A young fellow em-
ployed in the freight depot undertook to
eat four dozen bananas, one after an-
other, upon a wager amounting to the
price of the fruit. He succeeded in
stowing away fifteen without much diffi-
culty, and although he did not appear to
be desperately hungry after that, he
persevered until the twenty-third ban-
ana had disappeared down his throat.

At this point he retired from the contest
as gracefully as circumstances would
permit, and after paying the bills for the
gastronomic exhibition and the ban-
anas which the audience had disposed
of, departed a wiser if not a sadder man.
—Keene (N. H.) Sentinel.

A Small Snow Storm.

La Nature, a French journal of sci-
ence, relates that a gentleman who was
walking rapidly along the street on a
cold, fair day, and had by violent ex-
ercise brought himself into a condition
of profuse perspiration, took off his tall
hat in saluting a friend.

As he did so he was astonished to feel
what was apparently a slight fall of snow
upon his head. Upon passing his hand
over his head he found several unmis-
takable flakes of snow there.

It is supposed that the freezing outer
air condensed the moist warm air within
the gentleman's tall hat so suddenly that
a veritable snow storm of miniature pro-
portions was produced upon his head.

Seven Boats in Tow of a Monster Shark.

The singular sight was witnessed in
the harbor recently of a man in a small
boat making a cruise with a shark for
motive power. Boat after boat went to
his assistance, until a string of seven,
manned by twelve hands, was in the
procession; but the shark's movements
increased with the increased weight, and
after leading his captors a merry dance
for a long while, he succeeded in throw-
ing out the harpoon and effecting his es-
cape. We hear that the length of the
brute was estimated at being nearer
twenty than fifteen feet—a customer not
to be rashly tackled single handed.—

The Supreme Court of the United States has for years been crowded with appeal cases to such an extent, that a decision is not reached in any case, unless advanced on the calendar, inside of two or three years. To relieve this pressure on the highest judicial tribunal of the country, Congress passed an act to create a Circuit Court of Appeals in each of the nine judicial circuits into which the United States is divided. Each court is to consist of three judges, one of whom is to be a Justice of the Supreme Court, another, the Circuit Judge, and the third a new judge to be appointed by the President, with the advice and consent of the Senate.

The first term of this court is to begin to-day, but to give the President and the Senate opportunity to select nine new judges, one for each district, the act provides that the Justice of the District and the Circuit or District Judge may organize the court, and be competent to sit as judges of the new court. In accordance with this provision, Justice Field of the Supreme Court of the United States and District Judge Deady of Oregon, yesterday organized the new court in San Francisco, and prescribed rules for its guidance, but probably will not act on any case until the new judge is appointed and confirmed.

The act abolishes appeals from District Courts to Circuit Courts and provides that appeals or writs of error may be taken from the District Courts direct to the Supreme Court in cases where the jurisdiction of the court is an issue, or of conviction of a capital or other infamous crime, and where the construction or application of the Constitution of the United States is involved, but in all other cases the Circuit Court of Appeals shall have appellate jurisdiction and its judgments and decrees shall be final.

SILVER ADVANCING IN PRICE.

The price of silver bullion is advancing in New York City. The immediate cause of this is the purchase of silver bullion by French syndicates, two of which are said to be buying the metal for speculative purposes.

It is generally conceded that the next Congress will pass a free coinage bill, and there is a strong probability that such a measure will have sufficient support in both Houses to pass it over the President's veto. However that may be silver is certain to advance in price in the near future and there is no safer or better investment to-day for capital than silver bars.

It is evident that there is not gold enough in the world to supply the demand for money and it is intimated that there is a scarcity of silver as well as of gold in Europe. Every silver dollar and bar of bullion in the United States Treasury vaults is represented in the currency of the country by silver certificates, yet the demand for more money is increasing. The surplus has vanished from the treasury and the extension of time for the redemption of bonds by the Government tends to make money scarcer. This emphasizes the demand of the masses of the people for free coinage, and, as a consequence, enhances the market value of silver bullion.

The people of Nevada, merchants and farmers as well as miners, now look to free coinage as the only immediate remedy for dull times. An advance of twenty-five or thirty cents an ounce in the price of the metal will revivify the State. It will create a demand for mines, give employment to thousands and increase the wealth and population of the State fifty per cent. within a year.

ABLE BUT UNFORTUNATE.

Colonel J. P. Irish, who nursed the Alta during its fatal illness, will shortly issue a weekly paper in San Francisco. Arthur McEwen in his syndicate letter says Colonel Irish can make a better speech than any other man in California and nobody can write a better editorial. He has more personal friends and admirers than any other journalist in California, with the exception, possibly, of Frank Pixley. Nevertheless it is a problem whether or not the Colonel can make a success of his paper. It is his misfortune to have been for many years connected with newspapers that have been the attorneys of corporations, and his name has become so indissolubly associated with grasping wealth that he will have to take a good many scalps before he can convince the public that he is not a stalking horse for some fortune or other that wishes to increase itself. Everybody who esteems brains will desire Irish's success.

Died From His Wounds.

SPOKANE FALLS, June 22.—Whitney Hart who was shot by Herbert Goff at Rosalia Saturday night, lingered until four o'clock Sunday morning when he died in great agony. In his ante mortem statement Hart claims he was on his way home from the depot and while walking in the middle of the street he heard a glass crash and found he was shot. Goff claims Hart was prowling around his house and he shot in self-defense. The two men had a difficulty several weeks ago when Hart shot Goff in the arm. Public sentiment is with the latter, who was arrested and taken to the Colfax jail.

BY TELEGRAPH!

News of Importance From Home and Abroad.

THE BEHRING SEA.

A Peaceful Settlement of the Seal Question Probable.

LONDON, June 22.—Sir George Baden Powell, member of Parliament, and W. Dawson of the Canadian Survey Department, have been appointed arbitrators in the Behring Sea conference, decided upon between the Governments of the United States and Great Britain. It is expected that the first meeting of the Board of Arbitration will take place in October next. The British members will meet almost immediately at Ottawa, whence they will proceed to Vancouver Island, B. C., with the intention of spending two months on board a man-of-war cruising in Behring Sea.

They will visit all the principal stations frequented by sealers. At the expiration of their cruise it is expected the British arbitrators will be sufficiently well acquainted with the details of seal-hunting business, and with the needs and interests of sealers, to be able to meet the American arbitrators as experts.

Ashley Froud, a son of the historian, has been appointed Secretary of the Behring Sea Commission.

THE NEW COURT OF APPEALS.

A Carson Youth Appointed Crier.

SAN FRANCISCO, June 22.—The new Circuit Court of Appeals for the Ninth Judicial Circuit of the United States, was formally organized for the transaction of legal matters to-day. Judge Deady of Oregon, who was appointed Associate Justice of the new court, owing to the continued illness of District Judge Hoffman, was installed as such, and the appointment of John C. Frank as Marshal was announced by the Court. Judge Field, presiding Justice, called attention to the rules prescribed for the Court's guidance by the United States Supreme Court.

Ernest S. Hawley of Carson, Nev., was appointed Crier and F. B. Morton of San Francisco, Messenger. Justice Field before adjournment announced that attorneys practicing in the U. S. Supreme Court would be admitted to practice in the Court of Appeals upon signing the roll, while attorneys practicing in the State Supreme Court would be admitted upon motion.

Anti-Italian Riots.

St. Louis, June 22.—Police investigation has developed the fact that the riot at Chain of Rocks Sunday was not the result of a fractional fight between Italians, but arose from hard feelings caused by the arrival of Italians at the camp. The raid was made by American workmen. The Italians were driven from the camp, their valuables and money confiscated by a gang of American laborers, and a race panic inaugurated. So serious were the proportions assumed by the affair that the Italian Consul this morning called on Chief of Police Harrison at Four Courts demanding police protection for his countrymen and the beginning of an official investigation. The contractor at the works has also asked for police protection. There are likely to be serious consequences arising from this bloody anti-Italian raid, and a rigid and searching investigation is now under way. Some of the American laborers thought to have been implicated in the riot are already under arrest. The Italian laborers driven from camp are now in refuge in this city.

Whisky played a prominent part in the affair, and the Mafia cry was used as a means of exciting American workmen to attack the Italians.

Floods at St. Joseph.

St. Joseph, Mo., June 22.—The Missouri river is higher than for several years and still rising. All Government work on the Kansas shore has been abandoned. The rapidity with which the surging waters are cutting away the Kansas bank can best be imagined when it is stated that half-acre lots of earth have been tumbling into the river ever since yesterday morning. Workmen who came in from Belmont today stated the neck of land which separates the river north and south is less than a quarter of a mile wide. At the rate the river is now cutting the land away it would require but a short time to place Elwood Suburb on an island and leave St. Joseph two miles from the river. This would also leave St. Joseph's million-dollar bridge standing over a dry spot where the river once wended its way.

Reform in a Navy Yard.

VALLEJO, June 22.—In pursuance with an order issued by Secretary Tracy June 3d declaring vacant the positions of Foreman and Quartermasters in all departments at Mare Island Navy Yard and providing for holding an examination under the civil service rules to fill those vacancies. The Board of Examiners appointed by the Secretary met to-day and received the names of seventy applicants for the twenty vacant positions. The examination of applicants begins to-morrow. The Board of Examiners comprises Chief Engineer George F. Kutz, Commander Nichols, Captain Cromwell, Commander Taylor and Naval Constructor Linnard, Lieutenant Pond acting as Recorder.

The Port Costa Accident.

MARTINEZ, June 22.—The examination of Conductor G. E. Collins and Engineer R. H. Moore on the charge of felony by reason of negligence of duty, thereby causing the death of Brakeman W. G. Jordan at Port Costa on the 15th inst, was held before Justice J. B. Smith to-day. A large number of witnesses were examined and the testimony was similar to that produced at the Coroner's inquest. The defendants were discharged on the ground that the testimony did not prove that they were guilty of gross negligence or carelessness.

Masonry Denounced.

Boston, June 22.—During the regular Monday meeting of Baptist ministers Rev. J. B. Stoddard delivered an address on the influence of secret societies and denounced Masonry in the strongest terms. Rev. Mr. Cleveland of Melrose arose and said he was a Mason and could not listen to unjust and uncalled for abuse. He made a point of order. It was defeated 50 to 7, and Mr. Cleveland, after requesting the conference to strike his name from the membership roll, left the hall.

Relics of the Samoa Disaster.

SAN FRANCISCO, June 22.—The Schooner Sea Wolf arrived from Apia, Samoa, this afternoon bringing a cargo of wreckage from the United States men-of-war Trenton and Vandalia, wrecked at Apia in the hurricane of March, 1889, and also bringing the remains of twenty seamen belonging to those vessels, who were drowned at the time. The remains will be buried at the Mare Island Navy Yard.

Died From His Wounds.

SAN FRANCISCO, June 22.—Coy Vernon, a negro convict at San Quentin, who was stabbed by J. Williams, another convict, in a dispute over the Corbett-Jackson fight, died to-day.

A Prince Sentenced to Death.

CALCUTTA, June 22.—Another Manipur Prince Sana, has been sentenced to death for warring against the Queen and abetting the massacre of officers.

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CAMILLE, Nauright, N. J. N. B. Be sure to get only

Hood's Sarsaparilla
Sold by all druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.
100 Doses One Dollar

PROPOSALS WANTED.

THE Reno Electric Light and Power Company of Reno, Nevada, will receive bids up to and including Saturday, June 27, 1891, for the furnishing of lumber and lumber in the construction of a proposed dam, necessary bridge and waste ways; also a building, etc., amounting approximately to 200,000 feet, and the delivery of the same on the grounds of the company, where required. Bids must be sealed, marked "Bids for Lumber," and addressed to the Secretary of the company, and delivered to the Secretary of the company on application. The successful bidder will be required to furnish a good and sufficient bond with two acceptable sureties, for the fulfillment of the contract. The company reserves the right to reject any and all bids.
J. E. LENDERMAN, Secretary.

A Social and Literary Entertainment will be given by the Young Ladies' Institute in Thompson's building Friday, June 26. Admission 25 cents; refreshments 25 cents. All are most cordially invited.
J. E. LENDERMAN.

Mrs. Jeff Bradley left last night for California.

T. A. Read of Franktown arrived in Reno last night.

Colonel H. B. Maxson has returned from San Francisco.

S. T. Buzich the groceryman left for San Francisco last night.

Mrs. W. O. H. Martin and children have gone to San Francisco on a visit.

Nevada Lodge No. 5, A. O. U. W., will hold its regular meeting this evening.

General R. P. Keating of Virginia City returned yesterday from San Francisco.

Sheriff Fellows of Humboldt returned from Carson last night and left for home.

Judge Fitzgerald passed through yesterday on his way to Austin from San Francisco.

Miss Ella Bender of Carson arrived yesterday with Miss Mary Crouth of Sacramento, who left for home last night.

H. M. Levy, the mining man, arrived yesterday morning from San Francisco and left for Virginia by private conveyance.

Louis Dean went East Sunday with twenty-one carloads of fat cattle. He purchased them in California and takes them to Omaha.

A social and literary entertainment will be given by the Young Ladies' Institute in Thompson's Hall Friday evening, June 26. See 50-cent column.

J. N. Thacker, Wells, Fargo & Co.'s detective, returned last night from Dayton, where he had been investigating the express robbery at that place.

Kanaka Jim informs us that a pet deer has taken possession of his yard and he would be pleased if the owner would call and take the animal away.

The Reno Electric Light and Power Company invite proposals for furnishing 200,000 feet, more or less, of lumber and timbers. See advertisement.

It is announced by the Commissioner of Internal Revenue, that one of the Deputy Internal Revenue Collectors in this State will be dispensed with after July 1st.

A Calcutta dispatch, dated June 19th, says that sixty earthquake shocks were reported throughout the province of Bengal Thursday. Many buildings were destroyed.

The Commercial Club of Pittsburgh, Kansas, offers \$30,000, and the Peoria Athletic Club of Laredo, Texas, offers a purse of \$20,000 to Sullivan and Slavin for a fight to a finish.

Postmaster Nasby has been informed by the Department at Washington that the Reno postoffice retains its place in the second class with a salary of \$2,000 per annum as heretofore.

The Carson Morning News has made its appearance. It is Republican in politics and chock full of promises. It is published by Ed T. Dupuis, who says Carson can and ought to sustain one good paper.

The Board of Pardons will meet July 13th. Twenty-four applications have been filed, two of which are by persons sentenced for murder in the first degree and nine by persons sentenced for murder in the second degree.

The contract for furnishing the Asylum with supplies for the ensuing year was awarded by the Asylum Commissioners yesterday. W. O. H. Martin furnishes the groceries and provisions, and W. S. Bailey will furnish the meat.

The ladies of the M. E. Church Aid Society will give an ice cream social at the residence of Colonel Stanley next Tuesday evening, June 30. Everybody cordially invited to be present. Good music and a pleasant time assured.

The yard engine at Carson ran into the team belonging to the Poor Farm of Ormsby county, yesterday afternoon. The Tribune says one of the horses was killed, the wagon was smashed and the driver, Sam Baker, seriously injured.

The Republican says it has received specimens from the Tiffany baking powder mine which is located in the mountains east of Truckee. An analysis of the powder shows that it is composed of soda and an acid resembling cream tartar.

April showers still make moist the June days up in Washington, and a writer in the Helena Journal declares that if the rain keeps on, the irrigating ditches will have to be roofed to keep them from getting on the next State map as navigable water courses.

Superintendent Bliss of the Water Works has a force of men at work coating water pipe with a preparation of asphaltum and pitch. This prevents rusting on the outside and the growth of vegetable matter on the inside of the pipe, which is always smooth and clean.

The JOURNAL acknowledges the receipt of an invitation to the Fourteenth Annual Commencement of Mt. St. Mary's Academy at the Academy Hall to-morrow (Wednesday) evening, June 24th, at 7:30 o'clock. The Academy is conducted by the Dominican Sisters, and has a high standing among educational institutions.

Senator Cullum of Illinois is announced as a candidate for the Republican Presidential nomination in 1892.

The Lassen Advocate says: J. M. Patton, Master of Transportation on the N. O. & O., was in this valley last week rustling for business and buying surplus grain for shipment to Reno. He purchased a considerable quantity from Wm. Brockman.

The JOURNAL is indebted to Senator Stewart for a copy of the Hand Book of the American Republics, second edition enlarged and revised. It is a book of nearly 500 pages containing much valuable statistical information relating to the Republics of America.

Don Harrington of Gold Hill died yesterday from the effects of injuries received last Friday by the upsetting of a buggy on the Geiger grade. His sister, Miss Nellie Harrington, who was seriously injured at the time her brother received his death wound, is very low.

Farmers are complaining of the cold weather. Abe Smith, who lives about three miles east of town, says the natural meadow grass is about three weeks later than usual and alfalfa is not blossoming. People are afraid to commence haying until the weather settles.

Major General John M. Schofield, Commander of the United States army, and his young bride passed west in a special car Sunday night. The General was accompanied by three members of his staff. He is old but soldierly looking, and the bride is young but by no means beautiful.

Sheriff Fellows of Humboldt took to the State Prison yesterday morning three Indians, two bucks and a squaw, who were sentenced to State Prison for ten years for murdering a witch at Lovelocks, and a Chinaman who was sentenced to four years imprisonment for attempt to commit rape.

John Daggett, ex-Lieutenant Governor of California, and M. D. Hatch, a prominent fruit grower of that State, both World's Fair Commissioners, passed West Sunday night on their return from Chicago, where they attended a meeting of the Commissioners and selected a site for the exposition.

John Wheeler is driving a band of horses from Salubria, Idaho, to his son-in-law's—Ab Smith's ranch—on the Truckee Meadows. Mr. Wheeler is ninety years of age, and he has just procured a land warrant for services rendered by him in the Black Hawk war of 1831-2. The warrant is for 150 acres of government land.

The six soldiers on trial in the Civil Court at Walla Walla for lynching A. J. Hunt were declared not guilty by the jury. The soldiers were accused of killing Hunt, who was a gambler, because he killed one of their comrades. The affair created much excitement in military circles and the soldiers will now be tried by court martial as it seems the military are not thoroughly satisfied with the verdict of the jury.

It is reported that the Bull Reciprocal Motor has been tried at Verdi and failed to perform what its inventor expected. The motor was designed to overcome the force of gravitation and ran until its machinery wore out. Scientists say this cannot be accomplished and the Patent Office at Washington, believing that perpetual motion is an impossibility, will not file a caveat nor issue a patent for a perpetual motion machine unless a working model is placed in the office, and that has not yet been done.

"THE TWELVE TEMPTATIONS."

A Play Abounding in Special Features. The second edition of "The Twelve Temptations" under the capable management of Charles H. Yale, will be seen for the first time here at the Opera House to-morrow night. The spectacle has undergone so many changes that, aside from its title, it is from all accounts, more grand and pleasing than that which was seen last year. An exchange, in commenting upon the piece, says:

"W. J. Gilmore's 'Twelve Temptations' attracted an audience at the Grand Opera House last evening that filled the theatre; an audience, too, that was not slow in demonstrating its admiration of the magnificent stage settings and sinking transformation scenes, applauding the villain when his schemes seemed to go well, and applauding the hero when the good triumphed over the bad. In mounting 'The Twelve Temptations,' Mr. Gilmore has passed the highest mark of the spectacular drama. The scenery is the handsomest ever seen on a theatrical stage, while the mechanical effects are marvelous. The play abounds in special features. The ballet is strong, introducing five very pretty novelties."

ABSOLUTELY PURE

THE INSANE ASYLUM.

What a Correspondent Says of the Institution.

Upon arriving in Reno, Governor Colcord, who is Chairman of the committee, telephoned to Dr. Thoma that the Board was waiting to be conveyed by him to the institution. In about half an hour the special doctor appeared with the necessary conveyance, and the Board—consisting of Governor Colcord, State Controller Horton and State Treasurer Egan (with your correspondent)—repaired at once to the scene of the investigation. As the doctor had so short notice, things were found exactly in their every-day dress. The party was cordially greeted by Mr. Crockett, the clerk, and Mrs. Thoma, the doctor's charming wife.

After a short business meeting, in which water rights were extensively and ably discussed, the wards were visited. Everything was found neat and clean, and many improvements were noticeable. The plumbing in the stationary wash-stand and bath-rooms has for a long time been a great source of annoyance, for, in spite of the closest watching, the patients were continually filling the waste pipes with paper and rags. Dr. Thoma found no way out of the difficulty except doing away entirely with the combined convenience and nuisance—and this has been done.

New rocking chairs and tables have been placed in the women's sitting-rooms, and in places fresh flowers bear silent witness to the care and attention which the afflicted ones receive. The good fellowship, too, which seems to exist between the patients and Mrs. Barlow, the matron, shows that she is habitually kind to them.

The state of the building throughout shows that very little of the money appropriated in the last eight years has been used in repairing. For four years the large water tank in the attic has been constantly leaking, and the damage is very perceptible in the brick wall of the building. The dwelling house for the resident physician is also in a very dilapidated condition, but the Board has given instructions to make all necessary repairs.

The Asylum has its own electric light plant, and the entire place is beautifully lighted. The vegetable garden is in a flourishing condition, and the gardener expects to be able to supply the Asylum with all necessary vegetables for a year. In the old orchard the trees are loaded with fruit, and this Spring Dr. Thoma has set out two acres of young fruit trees. Everything is now being conducted in a careful and business-like manner.

It would have been well if the law requiring the examination of applicants for admission to the Asylum had not been amended. The first law provided that the certificate should be signed by the Judge, two doctors and a County Clerk. The amendment makes the signature of one physician and the Clerk sufficient, and as the only available doctor in some localities is a horse doctor, this permits an immense unloading of indigent inebriates and imbecile old people who should be the care of their children or their own county—at least the refuge for raving maniacs is not the place for them, and the next Legislature should make the admittance more difficult. With this assistance from the Legislature, the Board, with the able co-operation of Dr. Thoma and his corps of attendants, will make the Asylum all that can be desired.—Virginia City Enterprise.

STATE OF OHIO, CITY OF TOLEDO, ss.

LUCAS COUNTY.
Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

District Court Session.

A session of the District Court will be held on Saturday next, June 27, 1891, for calling a calendar and setting cases for trial. By order of the Court,
O. H. FERRY, Clerk.

High Water in the Missouri.

Special to the Journal.

KANSAS CITY, June 22.—Floods in the Missouri reached this city last night and the water now stands 23 3/4 feet above low water mark. An additional rise of two feet would flood the lowlands and cause great loss to property. The rise in the Missouri has backed up the waters of the Kaw until they stand within two feet of flood tide.

The General and His Bride.

Special to the Journal.

SAN FRANCISCO, June 22.—Major General and Mrs. John M. Schofield arrived to-day and will occupy rooms at the Palace Hotel for a short time before proceeding to Monterey, California. They were met at Oakland Mole by Brigadier General Ruger, commanding the Division of the Pacific, and staff, who escorted the party to this city.

Cow Poisoning at Red Bluff.

Special to the Journal.

RED BLUFF, Cal., June 22.—In the cow poisoning case Dr. West, tested the contents of the stomach of the bull, for arsenic. He is also testing the corn for paris green and arsenic poisons. Many theories were advanced to explain the poisoning, but the impression of many is that the cows got it accidentally from poison put out to kill grasshoppers.

Another Tornado.

Special to the Journal.

LOUISVILLE, June 22.—A tornado is reported from the counties of Monroe, Metcalf and Washington in the southern part of the State. A number of houses were swept away, and crops greatly damaged. Near Tompkinsville James Payne's house was wrecked and several members of his family injured.
